

## WHY WORLD VIEW?

- Your students, with diverse interests and curiosities, are navigating a world of work that is fast-changing.
- Every teacher, as a front-line ECG practitioner, can make a huge impact towards to many students daily.
- World View augments educators' practice with insights, industry voices, and practical tools.

## ABOUT THE PROGRAMME

Drawing on TAC's work with over 60,000 youths, World View is a 2.5-3 hour PD workshop for Teachers and ECG practitioners. Participants gain research-grounded insights on youth career perspectives, hear from professionals in Singapore contributing towards building meaningful Worlds of tomorrow, and leave with a practical ECG resource canvas ready for use with students.

**THE PROGRAMME** 2.5–3 HOURS · IN-PERSON · SCHOOL-BASED

### 01

#### Youth Perspectives on Careers

Research-backed insights on what drives youth career decisions and well-being. Introduction to TAC's "Idea of Worlds" framework — grounded in data from 14,000+ surveyed youths within recent years.

~45 MIN

### 02

#### World Panels

Live sharing and Q&A with professionals from various sectors. Hear about trends, skills in demand, and industry realities — directly applicable to ECG guidance.

~60 MIN

### 03

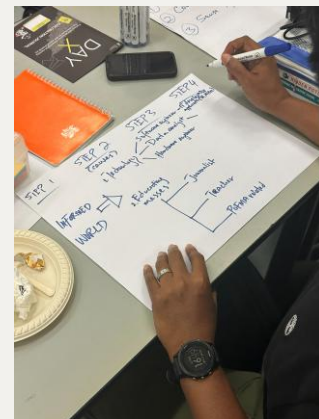

#### World Map Activity

Hands-on group activity to map jobs, causes, and post-secondary pathways across the Worlds. Participants leave with a completed ECG canvas ready for direct use with students.

~45 MIN

## WHAT EDUCATORS WALK AWAY WITH

- **A clearer picture of what drives youth career decisions**  
Grounded in TAC's data from 60,000+ youth interactions — covering what young people want from work, what shapes their well-being, and how educators can respond effectively.
- **Industry-current knowledge on Singapore's future economies**  
Hear from professionals in the various sectors on industry trends, shifting skills demands, and career realities — directly applicable to ECG conversations with students.
- **A practical, ready-to-use ECG resource canvas**  
Leave with a completed World Map canvas to guide students through careers, causes, and post-secondary pathways — usable in ECG sessions from the next day.
